OUR SAFARI VEHICLES

Our custom safari vehicles come with a pop-up roof to ensure you a front-row seat to that oncoming herd of elephants or a leopard bearing down on its prey. These are all crucial for a memorable Africa safari holiday tour experience. We have pop up roof safari vans and the 4X4 Safari Land Cruisers, which is the ultimate safari vehicle, with its all-wheel drive and high suspension gliding over the terrain. The trusted vehicles with your expert local driver guide will deliver you right into the heart of the Africa safari experience. All seats are individual window seats, and are equipped with lap-seat belts, so comfort and safety are guaranteed even when driving off road.
